INDEX TO VOLUME LXXXII

Acentropus niveus, distribution of in N. America 250

Achorutes socialis, aggregations of 84

Aedes spp., specific characters in tarsal claws 160

Agrotis orthogonia, first-instar feeding of 181

Anagoga, larvae of 208

Andison, Harry, article by 68

Annual Meeting, report of 86th 163

Aphids, resistance of plants to 175

Arctogeophilus fulvus, identity of 253

Armstrong, Thomas, article by 73

Aspidiotus lataniae, effect of miticide on 170

Auclair, J. L., article by 175

Balch, R. E., article by 117

Balclutha arctica n. sp. 124

Balcluthini, notes on Canadian species of and key 123

Barynotus, keys to species of 201

Bee, honey, toxicology of 177

Beirne, Bryan P., articles by 93, 123, 173, 186

Bellemare, E. R., article by 22

Benzene hexachloride, effect on clover seed and insects 141

Bis (p-chlorophenoxy) methane—see Neotran

Index to Volume LXXXII—continued

BLAKELEY, P. E., article by 181

BOOK REVIEWS:

A century of Entomology in the Pacific Northwest 87

Insects affecting Forest Products and other Materials 88

The Mayflies of Florida 115

The Biological Control of Prickly Pears in South Africa 179

Bramble leafhopper, on loganberries in Pacific Northwest 68

BROWN, W. J., article by 197

BRUNELLE, LOUISE, article by 22

Canadian Division of Entomology, new leadership in 70

CASS, L. M., article by 102

Centipede, new Canadian record of 101

Cerambycidae, of Vancouver Island 85

Chlordane, use of dust against grasshoppers ..... ,112

Choristoneura sp., effect of staminate flowers on larval size 34

Chromatography, paper partition, with aphids 175

Cixiidae, key to Canadian genera of 93

Cixius, key to Canadian species of 96
meridionalis n. sp. 98
fulvus, n. sp. 100

Coleoptera, cyto-taxonomy of 58
extra-limital distribution of 197

Collembola, note on in Alberta 196

COOK, CARL, article by 190

CRABILL, RALPH E., articles by 101, 253

Cryptus inornatus, distribution of progeny by 1

Cucumbers, varietal resistance to insecticides by 102

Cyto-taxonomy, of Coleoptera 58

DDT, effect on cucumber varieties 102
effect on clover seed and insects 141

Dermestes maculatus, development of 22

Diarsia spp., male genitalia of 25
geographical variation in 28

Diarsia, *pseudorosaria* n. sp. 26
pseudorosaria freemani n. ssp. 28
pseudorosaria pseudorosaria n. ssp. 27

Diphtheroglyphus maculata n. sp., n. gen. 211

Division of Entomology, Canadian, new leadership in 70

DOUTT, RICHARD L., article by 165

DOWNING, R. S., article by 44

Dragonflies—see Odonata
Dytiscus, key to Canadian species of 51

Dytiscus hatchi n. sp. 50

Entomological Society of London, letter from 240

Epiptera, Canadian species of with key 186
confusa n. sp. 189
manitobiana n. sp. 187

FARSTAD, C. W., article by 181

FLANDERS, STANLEY E., article by 134

Fluorescein, on crops for marking bees 195

Forest tent caterpillar—see Malacosoma disstria

FOX, CHARLES J. S., article by 112

FRIEND, W. G., article by 102

Fruit insects, control with parathion 44

Gammexane—see Benzene hexachloride

Grasshoppers, control of with chlordane on tobacco 112

GREEN, G. W., articles by 52, 194

HALIBURTON, WM., book review by 88

HARCOURT, D. G., article by 102

HARDWICK, D. F., articles by 25, 231

HARDY, GEORGE A., article by 85

HOLLAND, GEORGE P., article by 126

Hylemya spp., damaging onions, cabbage and radish 12
antiqua, brassicae, cilicrura, trichodactyla 12

Hyperetis, larvae of 209

Hyphantria textor, reactions of larvae to predator 52

IDE, F. P., book review by 115

Insecticides, effect of on clover seed yield 141
effect of on clover insects 141
systemic, factors limiting 247

Index to Volume LXXXII—continued

International Great Plains Conference 83

Intersexes, in Tropidophryne melvillei 165

Jacobson, L. A., article by 181

Judd, W. W., articles by 84, 250

Kitto insect collection, The 83

Laccocera canadensis n. sp. 173

Laccocera spp., Canadian species of 173

Lachaine, J. P., article by 12

Lejeune, R. R., article by 34

Lepidoptera, slide mounts of genitalia 231

Macrobotys n. gen. 228

Malacosoma americanum, reaction of larvae to predator 52

Malacosoma disstria, ant attacking larvae of 194

Maltais, J. B., article by 175

Martin, Hubert, article by 247

Matthewman, W. G., articles by 12, 102

McGuffin, W. C., articles by 196, 205

Meadow vole—see Microtus pennsylvanicus

Mecistocephalus melanotus, status of 253

Megabothris asio, notes on 126

Megabothris calcarifer gregsoni n. ssp. 132

Methoxychlor, effect on cucumber varieties 102

Microtus pennsylvanicus, Megabothris asio breeding on 126

Mimophobetron n. gen. 222

Mite, a new Argentinian 211

Montreal Branch: activities of, 1949-50 237
President's address, 1950 meeting 238
report of Annual Meeting, 1950 236
report of nomination committee 239
revenue and expenditure 238

Morgan, C. V. G., article by 44

Mounts, of genitalia (Lepidoptera) 231

Munroe, Eugene, article by 217

Muscina assimilis, damaging onions, etc. 12

Musgrave, A. J., articles by 177, 195

Neotran, effect of on Aspidiotus lataniae 170
effect on predators of scale 172

Nesbitt, Herbert H. J., article by 211

Nova Scotia, Odonata from 190

OBITUARY NOTICE:

Francis J. A. Morris (1869-1949) 90

Odonata, from Kenora and Rainy River Districts 16
from Nova Scotia 190

Oliarus, artemisiae n. sp. 94
key to Canadian species of 93

Pachymerium tristanicum, new record in Canada 101

Paragopsis strigatus, damaging onions, etc. 13

Parasitic Hymenoptera: egg disposal in 134

Parathion: uses of in British Columbia orchards 44
toxicity of to plants, insects and man 49
effect on clover seed and insects 141

Phillips, J. H. H., article by 114

Pielou, D. P., article by 141

Pineus pinifoliae, life-history and effect on pine 117

Pinus monticola, effect of Pineus pinifoliae on 117

Plagodis, larvae of 205

Plants, resistance of to aphids 175

Platypalpus sp., damaging onions, etc. 13

Plumb, George H., article by 53

Pontoppidanidae, taxonomic position of 214

Precipitin test, as an entomological tool 241

Pyrausta: North American species referred to 217
generic position of species of 217
new genera of 222, 228
keys to 229

Radioisotopes in entomology 114

Rathwell, A. W., article by 12

Rhinoncus, keys to American species of 202

Robinson, G. G., article by 170

Root maggots, damaging onions, cabbage and radish 12

Salkeld, E. H., article by 177

Sarcophaga, new species of from ground squirrel 245
citellivora n. sp. 245

Sellers, W. F., article by 170

Index to Volume LXXXII—continued

SHEWELL, G. E., article by 245

SMITH, RICHARD A., article by 165

SMITH, STANLEY G., article by 58

Snow-flea, see Achorutes socialis

Stethorus, key to species of 200

SULLIVAN, C. R., articles by 52, 194

Systemic insecticides, factors affecting use of 247

Tetranychus bimaculatus, residual toxicity of acaricides to 73

THOMPSON, W. R., articles by 70, 114

Tropidophryne melvillei, males and intersexes in 165

Two-spotted spider mite, The, residual toxicity of acaricides to 73

Typhlocyba froggatti, as apple pest in Ontario 114

Typhlocyba tenerrima, on loganberries in Pacific Northwest 68

ULLYETT, G. C., articles by 1, 179

UNDERWOODD, G. R., article by 117

URQUHART, F. A., article by 83

VOCKEROTH, J. R., article by 160

WALKER, E. M., articles by 16, 90

WALLIS, J. B., article by 50

Weevils, feeding habits of 53
infesting conifers 53

WEST, A. S., article by 241

White pine—see Pinus monticola
